ARE SCHOOLS TO BLAME FOR ORDINARY IGNORANCE?

MOVING? Please use form inside paper and give full information. Mailing list is run on Friday for following week.

There has been a great deal of Hue & Cry going around & about over the fact that kids can go through elementary school and in some cases through what we smilingly refer to as Higher Education without being able to read, write & figure and if they are muscular types without even attendin' classes and this brings up one more interestin' circumstance. Obviously there are a lot of people in Govmint and in the various special interest activist groups who have an inability to think. Th' latest broolaha to surface along these lines has been the sudden discovery of the fuel conservationists that as they have pushed to get insulation on top of insulation in our houses & buildings we have trapped the stale air and noxious fumes to such a degree that tryin' to keep warm & cool.

Nutrena's looking for bashful breeders.

We can help you prevent this problem.

Poor cow condition now can mean bashful breeding after next calving season.

Poor condition also reduces the cow's ability to develop and drop a strong, healthy calf.

So the management and feeding decisions you make now are critical. We can help you with both.

We offer a unique management aid to customers—the Nutrena Live Calf Calendar, a month-by-month guide to feeding, health, selection, complete cow and calf care.

We'll work with you to build a feeding program around your feedstuffs—balanced economically to provide all the nutrition necessary for peak herd performance. Nutrena supplements include Beefcake®-20 Breeder, Beefcake®-32 and CLS® Controlled Release Liquid Supplement. Call your Nutrena dealer.

We want to earn your feed business.

Stuph & Thangs (CONT. FROM PAGE 1)

as the case may be, we have also built deadly traps. Without some fresh air your dream house can become a death trap.

This is just one in a long line of esoteric notions with which the Special Interest boys and girls have led us down dead end streets. The popular way to get us to swallow their damnable phobias is to coin a Buzz Word and play it to the hilt in pushing these ideas. One of the recent inventions has been Acid Rain. The folks who want us to degenerate back into the Pre-Industrial Civilization who want no nuclear power, no coal fired power or no oil fired power have been screaming to High Heaven that Acid Rain was gonna kill us all, includin' plant life, wild life, streams, lakes and this Silent Killer would turn the world into a place where even litmus paper would dissolve.

It has been known for years that a great deal of what these people call air

pollution was a natural product of nature's recycling processes. However, they seek to terrorize us with this just as they did with the saccharin scare, the nitrite fright, the animal phat thang and other hare-brained ideas that were hatched without a smidgen of intelligence to back 'em up.

The Wall Street Journal recently published a little item concernin' Acid Rain that makes this just another evidence that these Special Interest Groups have a serious problem with the machinery between their ears. Another ill thought out notion, with no basis in fact.

It seems a couple of University of New Hampshire scientists, who did not know any better, sallied forth and drilled some holes in the ice in the Antarctic & the Himalayan Mountains and some of these cores more than 350 years old were loaded up with more Acid Rain than current samples have been revealing. The fact that huge amounts of Acid Rain fell long before the Industrial Revolution started

pollutin' the atmosphere with smoke, etc., indicates again that the Rain fighters, like most of the other Special Interest Groups, just don't know their facts straight. Serious studies by the Battelle Labs and American Electric Power (who burn lots of coal) indicate that Mother Nature has been feeding with Acid Rain for a long time and before we go off to the Deep End, we need more facts. Ho, hummy, hummy, hummy! Can our Educators develop those muscles in their skulls?

Ever think, The Editor.

P.S.: Uncle Dunk notes where at Secy. Rob Bergland and Ronald Reagan squared off, after a fashion, the other day and Reagan called the Carter Farm Record an "unprecedented disaster compounded of seven deadly sins." Bergland rebutted that the Farm Situation was never better and lookin' great. Dunk says he is plannin' a poll on this and found it interestin' that Martin Mook, head of the American Agriculture Movement in Plainville, Texas, who was a delegate to the Demo Convention, has endorsed Reagan and says the past three years have been the "worst three years in the history of American Agriculture". Difficult notions are what make horse races so politics, so take your pick. — Thaxal Brothers!

NE Texas Shorthorn Show & Sale Oct. 18 At Mt. Pleasant

Mt. Pleasant, Texas — The Northeast Texas Shorthorn Association show and sale will be held in the Youth Center & Rodeo Grounds at Mt. Pleasant on Saturday, Oct. 18, 1980, with the show at 9:30 a.m. and sale beginning at 12:30 p.m.

Selling will be 50 lots including 10 bulls and 40 females, a source of quality breeding stock in the South. The bulls are an outstanding group of herd sire prospects and the females an excellent offering of cow-calf pairs, bred cows, bred heifers and show prospects. Bloodlines are the best available in North America including dual purpose and Irish.

Sale headquarters will be the Holiday Inn, Mt. Pleasant, Texas phone 214/672-6611.

The annual banquet of the association will be held at 7 p.m. Friday, Oct. 17, at the Holiday Inn.

For catalogs and further information contact: Stuart Wilson, Sales Management, Stuart and Ann Wilson, 1711 H-R Drive, Southbrook, Jacksonville, Illinois 62660, phone 217/243-4682.

Spur Ranch Angus Performance Tested Bull Sale Oct. 27

Vinita, Okla. — Clay, Robert and Jot Hartley, partners, will host their Spur Ranch's annual performance tested Angus bull and commercial Angus heifer sale on Monday, Oct. 27, beginning at 12 noon.

Featured will be 85 registered Angus bulls 18-24 months old that are performance tested and fertility tested; 25 commercial Angus bulls 18-24 months old and fertility tested; and 90 commercial Angus heifers bred to some of Spur Ranch's best performance sires and due to calve this fall at 30 months of age.

The bulls have been tested for suitability in high altitude areas. The Spur Ranch is located 14 miles west of Vinita on Highway 60, then three miles north and one mile west at ranch signs.

A free lunch will be served at 11 a.m.

For sale catalogs contact: Spur Ranch, Box 557, Vinita, Oklahoma 74302, phone 918/256-7801; Clay Hartley, 918/256-7200; Jot Hartley, 918/256-6243; or Robert Hartley, 918/256-2118.

Shelton Ranches Santa Gertrudis Sale Set Nov. 8

Kerrville — Shelton Ranches, breeders of American Quarter Horses and Santa Gertrudis Cattle, will hold its Santa Gertrudis Production Sale on Saturday, Nov. 8.

Sponsors of the sale said: "Across the country, America's industries are suffering from a decline in productivity. They just can't get their goods to the market efficiently."

"It's a different report from the cattle industry of Shelton Ranches. Our productivity is growing by leaps and bounds. Gains produced by the best stock on the market: the Shelton Ranches Santa Gertrudis bulls."

"Their blue chip bloodlines can improve your purebred or crossbreed programs. So get the workers who produce, the cattle from the productive country of Shelton Ranches. You'll get a good return on your investment."

"Look for them at the Shelton Ranches."

Next "Top Dollar" Sale Oct. 30 At Ft. Worth Stockyards

Fort Worth—The sixth sale in the 1980 "Top Dollar" stocker-feeder shown and sales at Fort Worth Stockyards will be held Oct. 30. The last 1980 sale will be on Nov. 20.

Packer cattle are welcomed, also, at the sale, said Elmo Klingenberg, president of the stockyards company.

A popular feature of this year's sales has been that consignors are permitted to have up to 19 head in the "ten" head class for judging, or any number from 20 on up

Red Brangus Heifer Futurity Sale Nov. 21, Spicewood

Spicewood, Texas — Thirty three heifers have been delivered to the Paleface Ranch at Spicewood, west of Austin, for conditioning for the American Red Brangus Heifer Futurity show and sale to be held there Nov. 21. The show at 9 a.m. will be judged by Dr. Randall Grooms of Overton, and Bert Reyes of San Antonio will be auctioneer for the sale at 4 p.m. that day.

These 33 heifers were selected from 87 originally nominated for the Futurity. They will be sifted again prior to the judging. Mike Levi, owner of the Paleface Ranch, said this is one of the best sets of Red Brangus heifers he has ever seen. "I expect this to be a real good and competitive show — the quality is exceptional," Levi added. Consignors of the heifers are: Oakway Farms, Cameron; Caldwell 2-J Ranch, Evans; Flint Rock Ranch, Kingsbury; El Toro Rojo, Pineland; A. L. Martinez, McAllen;

WEEKLY LIVESTOCK REPORTER Page 17

Farm Prices Higher in September Index, Livestock Lower Average Gain 1.9% as Soybeans, Corn And Produce Posted Big Advances, Farm Costs Scored 1.1% Advance

The September Index of Prices Received by Farmers increased 5 points (1.9 percent) to 261 percent of its January-December 1967 average. Contributing most to the increase since August were higher prices for soybeans, corn, milk, oranges, lettuce and eggs. Lower prices for apples, catfish, potatoes, lemons, hogs and tomatoes were partially offsetting. The index was 21 points (8.8 percent) above a year ago.

The Index of Prices paid by Farmers for Commodities and Services, Interest, Taxes and Farm Wage Rates for September 15 was 286, up 8 points (1.1 percent) from mid-August. Higher prices for feed, seed, feeder livestock and farm equipment were the major contributors to the increase. The Index

for September was 31 points (12 percent) higher than a year earlier.

The Index of Prices received by farmers for feed grain and hay, at 265, was up 9 points or 3.5% from a month earlier. Corn at \$3.03 per bushel was up 11 cents from August. Grain sorghum at \$5.22 per cwt. and oats at \$1.68 per bushel each increased 10 cents from the previous month. Barley averaged \$2.63 per bushel, up 4 cents, and hay brought \$70.60 per ton, up.

At 276, the September index of prices received for meat animals was down 2 points or 0.7% from a month earlier, USDA said. Mid-September beef cattle prices averaged \$68.90 per cwt., a decrease of 70 cents from the

August entire month average. Calf prices were also off 70 cents at \$75.80 per cwt. Hog prices, at \$45.80 per cwt., were 40 cents less than in August. The meat animal index was the same as September 1979.

At 280, the September index of prices received by farmers for dairy products increased 6 points or 2.4% from August. The average price of all milk sold to plants and dealers, at \$13.10 per cwt., was up 30 cents from August. The index was 16 points or 6.6% above September 1979.

The September index of prices received by farmers for oil-bearing crops increased 16 points or 6.2% from August. Soybeans at \$7.69 per bushel were up 51 cents. Cottonseed averaged \$115, up \$5 per ton, but peanuts were down 0.3 cents at \$20.7 cents per pound. Flaxseed brought \$6.89, up 4 cents per bushel. The index was 26 points or 10% above a year earlier.

The index of prices paid for farm production goods and services for September was 282, up 4 points or 1.4% from August. Higher prices for feed, farm machinery, feeder livestock and seed pushed the index higher. The production index was 29 points or 11% higher than in September 1979.

The mid-September index of prices for feed at 247 was up 9 points or 3.8% from the previous month. Prices for all items were higher this month with feed grains and mixed poultry feeds contributing most to the increase, USDA noted. Compared to a year ago, the index was up 17%.

The index of prices paid for feeder livestock at 282 was up 4 points or 1.4% from August. September feeder pig prices increased \$2 per cwt. and feeder cattle and calf prices \$1 per cwt. The index was 2.8% below September 1979.

At 885, the mid-September index of prices paid by farmers for fuels and energy was unchanged from a month earlier. Compared to September 1979, the index was up 25%.

Barfield Sets Fifth Beefmaster Production Sale October 18

Immokalee, Fla. — The Barfield Sale, "Fifth Edition," traditionally one of the highlights of the Beefmaster year, has been set for Saturday, October 18, 1980. The TNU approved sale will be held at Barfield's purchased headquarters on Highway 20 between Immokalee and LaBelle, Florida.

The event will again feature the unique "doubleheader" format with the seedstock sale at 10 A.M. and commercial sale at 2 P.M. Barfield's now-famous "Immokalee-style" steak barbecue will be served at lunch at the sale site. The Rodeway Inn, Ft. Myers, Florida will be the sale headquarters.

Each of Barfield's previous sales have produced record individual and average prices. In 1979, the outstanding young Barfield-bred bull, "Warrior's Pride," set a still existing breed record for a bull sold at public auction. The year before, "Pride's" sire, "Crimson Warrior," had established the same record. This year, progeny of "Pride" will be featured at the sale.

The "Fifth Edition" sale will offer the greatest number of proven, genetically superior herd bulls ever offered in a single sale. Barfield will sell all of his four-year-old herd bulls this year, many of them in this sale. Included in the sale will be "Legacy," one of the top producing bulls in the history of Fred Barfield Farms; "Ben," a great son of "King," known for the excellent quality, eye appeal, and performance of

V Bar Hereford Sale Set Oct. 30 Near Stanton

Stanton, Texas — Mrs. Bob Sale, owner, and Bruce Brandenberger, manager, will host V Bar Ranch's 2nd annual registered Hereford production sale on Oct. 30 at the ranch located five miles west of Stanton on Interstate 20, then 10 miles north on FM Road 829 to the ranch sign.

Nugent Sees Danger In Rail Bill Deregulating Roads

Austin — Texas electricity consumers will not be served by the new railroad deregulation bill that was passed by Congress last week, says Railroad Commissioner James E. (Jim) Nugent. Nugent, after analysis of the bill, said that it provides too few safeguards against skyrocketing rate increases, especially for electrical utility companies that must rely on a single rail carrier for out-of-state coal shipments.

Nugent also warned that the same act could jeopardize state jurisdiction over rail shipments within the state. The Commissioner said there are a number of desirable aspects to the new law, such as, increasing competition between railroads and putting them on sounder economic footing.

But he warned that this should not be done at the expense of the captive shipper. He said there was clearly a potential for that happening in Texas, especially in the area of out-of-state coal hauls from Colorado, Wyoming

Page 18 WEEKLY LIVESTOCK REPORTER October 9, 1980

and Montana. "Except for a few cases, protection of captive shippers of bulk commodities — most notably coal — is inadequate," Nugent said after studying the effects of the new law. "More and more, coal is firing boilers in the state's electrical plants. As the cost of moving the coal increases . . . so, too, will your utility bills."

Using maps and charts, Nugent showed that there are more than 130 counties in Texas which rely on electricity generated, at least in part, by Western coal. Those counties, Nugent said, stretch from the Panhandle to the Rio Grande Valley to Texarkana and include Houston, San Antonio and Austin.

Six of the state's major electrical utilities have plant investments that require out-of-state coal, Nugent said. They are Houston Lighting and Power, Southwestern Public Service Co., Southwestern Electric Power Company, Central Power and Light, the City of San Antonio and the City of Austin — Lower Colorado River Authority.

Nugent said these utilities will find that the railroads will be able to raise rates more freely and customers will have fewer opportunities to appeal them.

On the question of state regulation of goods shipped by rail wholly within the state, Nugent said that he will seek an opinion from the Texas Attorney General to see if there are "any viable constitutional challenges to the usurpation of state authority."

The way the law is written the Railroad Commission is reduced to the status of "errand runner" for the Interstate Commerce Commission, Nugent said.

"The Railroad Commission was established in the last century to end the kind of rate discrimination and shipper preference that this bill opens the door to, Nugent said. "If we can prevent this from happening, we should do so. If we can't, then let's not waste Texas tax money going through the motions."

Arkansas Limousin Diamond Jubilee Sale Oct. 19, Russellville

Russellville, Ark. — Dr. Warren Center, secretary-treasurer of the Arkansas Limousin Organization, has announced that the ARKO's Arkansas Diamond Jubilee All-Select Limousin Sale will be held Oct. 19, beginning at 2:30 p.m. at the Pope County Fairgrounds in Russellville. Auctioneer and sale consultant will be C. K. "Sonny" Booth of Miami, Okla.

Selling will be 75 lots of solid color full-French purebred and percentage Limousin, individually selected by Gary Harding, director of the National Limousin Bull Test at Connors State College.

Harding said, "Because I could choose from the top of every herd, I have selected a group of cattle

that would improve any herd I've seen. "This is really a top notch set of cattle — especially the seven-eighth pairs. They are truly exceptional."

"This group of cattle were selected for uniformity, with emphasis on size, correct muscling and skeletal formation."

"This set of cattle could improve anyone's herd," Harding said.

The sale selection will include: Hampton Loverboy, winner of the get-of-sire at the 1979 Arkansas State Fair; Slick Rock's Hulk, embryo transplant son of Hanchon that weighs 1,500 pounds at 16 months; seven bred seven-eighths females; five 15/16ths pairs; 13 quarter females; 17 bred three-quarter pairs; three bred halfbloods; one open seven-eighths female; one full-French open heifer; and 15 Spring 1980 club calves.

Consignors include: Heather Lehnung, Rancho Verde; Rocky Springs; Slick Rock Ranch; Hawes Limousin Acres; Tall Tree Limousin; Tom-A-Del Farms; Fourche

Livestock Dealer, 2 Firms Convicted Of Illegal Cattle Shipments

A livestock dealer received a jail sentence; and a trucking firm and cattle company, all of South St. Paul, Minn., received fines after pleading guilty to charges of shipping cattle from Texas and Oklahoma without health tests or health certificates, a U.S. Department of Agriculture official reports.

Dr. Paul Beeton, director of the national brucellosis eradication program for USDA's Animal and Plant Health Inspection Service, said the convictions culminate a USDA investigation into a number of alleged

illegal cattle movements since 1978, and Oklahoma in the summer of 1978. "Successful prosecution of this case emphasized the importance of animal health laws, without which we would be unable to control or eradicate brucellosis and other serious livestock diseases," Beeton said. Federal and state governments currently are spending more than \$100 million annually in a cooperative state-federal brucellosis eradication program.

Harold Stewart, a livestock dealer, was sentenced to 90 days in jail and two years of probation for illegally moving 37 cows from Durant, Okla., to South St. Paul, Minn., on Aug. 31, 1978. The cows were shipped without certificates showing them negative to tests for brucellosis, as is required.

Stewart Livestock Trucking, Inc., was fined \$1,000 for a similar violation involving the illegal shipment of 21 cows from Gainesville, Tex., to South St. Paul on Sept. 1, 1978.

O and S Cattle Company, also was fined \$1,000 for shipping 23 cows from Bowie, Tex., to South St. Paul on Sept. 2, 1978, without negative brucellosis tests and without the required health certificates.

Sentencing by Judge Donald D. Alsop of the U.S. District Court, Minneapolis, Minn., took place Sept. 2.

Fort Worth Show Premium List Now In Mail

Fort Worth — Almost 6,000 premium lists for the 1981 Southwestern Exposition and Fair Stock Show, scheduled Jan. 28 through Feb. 8, were mailed this week to potential exhibitors, reports W. R. Watt, Jr., president-manager.

Premiums for the 58th annual livestock show and rodeo, exceed \$350,000, Watt said. "Exhibitors are urged to read the premium list carefully before mailing entries. Some rules have changed and exhibition times rescheduled from previous years."

Watt added that exhibitors who do not receive the book may request one at the Stock Show office, P.O. Box 160, Fort Worth, Texas 76101, or pick up one at the office, 3400 Crestline Road. Exhibitors of cattle, sheep, swine, horses, donkeys and mules have until Dec. 10 to enter. Deadline for poultry, rabbits and pigeons is Jan. 15.

The Register of Merit Hereford Show this year will honor Henrietta rancher Bryant Edwards. Premiums for this prestigious event have been increased to \$15,000. The Stock Show will also host a Standard of Perfection Polled Hereford Show.

Premiums available to exhibitors in the junior division total \$51,538. All junior heifers must be registered in the exhibitor's name by Nov. 1.

High quality cattle auctions planned this year include commercial Hereford females, selected Hereford bulls, Angus, Shorthorn, Polled Hereford, Brahman, Maine-Anjou and Simmental cattle, and Limousin range bulls.

Open and non-professional cutting horse contests will be held at the show, along with new classes in the horse division for junior and amateur exhibitors. Auctions also are set for Paint and Quarter Horses, and donkeys and mules.

Mail orders are being accepted for tickets to the 22 Rodeo performances. Rodeos are scheduled at 8 p.m. Jan. 28 through Feb. 8; at 2 p.m. Jan. 31 through Feb. 8; and at a special 10 a.m. matinee on Jan. 31. Tickets are priced at \$6 for all night and weekend rodeos, and \$6 for weekday matinees Feb. 2 through Feb. 6. Each mail order should include an extra dollar for return postage and handling.

TM-AA Sets First Commercial Sale Oct. 26, Abilene

Brownwood — Plans were finalized by the board of directors in meeting here July 27 for the Texas Maine-Anjou Association's first commercial bull and female sale to be held in the Taylor County Coliseum at the Fair Grounds in Abilene, on Sunday, Oct. 26, beginning at 1 p.m., according to Don Rhone of Coleman, president of TM-AA.

Rhone said only animals which are registered in the American Maine-Anjou Association will be accepted for the sale, but consignments from any part of the country are welcomed. All of the cattle must have health papers, and bulls which are breeding age must have fertility papers.

Already consigned are 60 three-quarter coming-two-year-old Maine-Anjou heifers, mostly blacks, that are bred to Black Chianina bulls. Halfbloods on up through fullbloods will be accepted for the sale.

"This sale will be a good opportunity for 4-H and FFA youngsters to buy females from which they can produce their own club calves," Rhone said. He added that it will also be an opportunity for commercial cattlemen to buy either bulls or females which they can take home for comparison with their other cattle.

Buddy Slevens and Associates of Albany will manage the sale.

Consignment deadline is Oct. 1, or until sufficient cattle have been consigned to have a good sale. Consignments may be made by contacting Don Rhone at 816/624-4141; Rudy Slevens at 916/702-2852; or Calvin Fryar at Brownwood, 816/646-1884.

TEXAS RED ANGUS NEWS

Red Angus Expansion Well Under Way

Denton — "The anticipated Red Angus expansion is well underway," states Jim Leachman, President of the Red Angus Association. "With the initiation of our new Recordation program in which Percentage Red Angus between 87% through 99% are recorded as Category 1-B animals has lent status and image to high blood content Red Angus as well as a practical and intelligent addition to any commercial beef production program. The Category 1-B Red Angus possesses all the physiological advantages of the Angus breed plus the all-important factors of mandatory performance information, and red color. Since the new Recordation program was initiated in March of this year interest on the part of large-scale commercial operators has increased and participation is expected to mount dramatically."

Seven month's figures show a very satisfactory increase in 100% registrations compared with the same eleven month period in 1978-79. This alone points out the increased demand for registered 100% Red Angus by new breeders as well as progressive commercial producers who have learned the improvement a top performance tested Red Angus bull can impart on a commercial cow herd. The advent of the "Red Baldie" is here to stay. Feeder operators are increasing their acceptance after observing the added gain and efficiency advantages of the mandatory performance testing requirement imposed by the Red Angus Association," added Leachman. "As numbers increase in the Category 1-B herdbook, more and more animals in this division will be seen in."

Red Angus Registrations Show Substantial Growth

Denton — Registrations of Red Angus cattle by the Red Angus Association of America have shown strong increases in the past year, according to Lyle V. Springer, executive director of the Denton, Texas based national organization.

Registrations of 100% Red Angus have increased by 26% to a total of 11,020; and recordation of percentage with a heifer calf and selling rebred for total of 14,038.

"This has been one of the best and most active years for Red Angus," Springer said. "He expects registrations of both fullblood and percentage Red Angus to continue at a strong pace."

Association sponsored show, sales and tests. Leading Bull Test Stations are showing increased interest in attracting top end Category 1-B bulls into their test and sale programs to satisfy the increased commercial demand for Red Angus bulls, and actually there is little if any genetic difference between 100% and Category 1-B bulls, especially those from purebred but unregistered Black Angus base females.

RAAA Election Set At National Convention in Dallas Oct. 11

Dallas — James H. Leachman of Billings, Mont., president, and five directors of the Red Angus Association of America, will end current terms as officers of the association at the National Convention of RAAA in Dallas this week.

Leachman will be concluding his second term as president and cannot succeed himself according to bylaws of the association. Of the five directorships to become vacant, four directors are completing their first terms and can be re-elected to another term. One director at large is finishing his second term, and will be replaced on the board.

Election of the new president and directors will take place during a general session of the membership at 2:30 p.m., Saturday, Oct. 11, at the Sheraton Dallas Hotel, headquarters for the 27th annual convention of the Red Angus Association of America.

Hendersons of Pittsburg, Texas Top Buyers in Virginia Red Angus Sale

Pittsburg, Texas, were top volume buyers in the Smith Creek Red Angus Ranch sale at New Market, Va., held July 26. The Hendersons took the high selling individual, Moreland, Wyma 688, a 1975 daughter of JHL Burke 247 out of a R. Wyma 401 016 a granddaughter of Robol 805-401, a national champion bull.

There were 28 buyers from 10 states in the sale managed by Gayle Ingram of Quitman, Texas. Ingram gavelled off 78 lots for \$79,476 for an average of \$1,020 per head. Seventy percent of the buyers were purchasing their first Red Angus.

Experts, who should know, report that a single oyster can produce 100,000 eggs a season. That's a lot of eggs.

But if a single oyster can produce that many, think what a married oyster could do.

AVOID CHANGING WELL LEATHERS FOR MANY YEARS

Perma-cups are molded urethanes, more wear resistant than nylon. Perma-cups will outlast leathers 10 to 1. Their tapered design allows only 1/8" weeing, instead of 5/8" of a leather. Much less friction for easier pumping extends cylinder life greatly. Perma-cups must be used in a good or new cylinder, as they do not swell. Install Urethane Perma-cups, Urethane Check-balls, and Urethane Pump Rod-guides, and don't pull that well for many years. Thousands are in wells that have not been released in 9 years! All are available in standard cylinder and pipe sizes. Write or call for our catalog. We ship same day order is received. This is our 30th year serving ranchers.
